

ABOUT ME

I build things for the people & productivity.

I'm a student specializing in building and automate things (mostly CLI applications). Currently, I'm working as a Freelancer. And occasionally to contribute to opensource projects and learning as much as I can.

Open to learning and growing with the organisation.

SKILLS

- Python | Scrapy | Selenium | Appium | FastApi
- Flutter | Dart | Android
- JavaScript (ES6+) | CSS3 | HTML5
- MySQL | MongoDB | PostgreSQL
- Git | Github | GitHub Actions
